30.	Please provide below any other feedback about your experience at King Ceasor University	t was generally a good experience where I got to learn a lot and made very good friends.

		<p>It was quite a good experience as I learnt a lot and gained a lot of knowledge and skills especially in the clinical years.</p> <p>It was such a nice time of learning and developing my life</p> <p>Immediately I completed my MBChB program at KCU, I was given a acting position as District Health Officer of Pader District Local Government. This translates that KCU gave me a quality which could easily be seen and above all there is tremendous change in the department and total team work by the health workers. I really appreciate KCU for giving me the opportunity to study from their University.</p> <p>Nice private university</p> <p>It was fine but tution is too high for a typical Ugandan</p> <p>Being pioneers we enjoyed all the attention from our tutors and their willingness to see us improve each day.. The student tutor ratio was almost 1:5 respectively.. This eased our learning and consultations..</p> <p>My experience at King Ceasor University has been very wholesome. I have learned alot and met colleagues from various countries.</p> <p>I learned/understood better in KCU than I did from the school I transferred from, it's wasn't all easy from KCU but it's great.</p> <p>It was okay</p> <p>Great memories</p> <p>It was good and gained more knowledge.</p> <p>A good experience overall</p> <p>The university provided what is necessary to us but I have been affected by the current saga and commotion for our fate with the medical council</p> <p>Worst experience in my academic history</p> <p>KCU provided a great studying environment for me. I am proud of the University</p>

	<p>My experience at KCU was awesome. The lecturers, hospital staff, administration and my colleagues made the journey fantastic. It was quite a good experience as acquired a lot of knowledge and skills especially during our clinical years at mulago hospital where we got to learn from specialists.</p> <p>A wonderful university Excellent about lectures, social networking, exposure to hospitals, well organised administration.</p> <p>Average</p> <p>It was holistic</p> <p>It was a great experience with so much to learn academically, socially and personally. King Ceasor University is very organized university that focuses on providing quality education to the students. it aims at academic excellency I would therefore recommend any person willing to have knowledge and skills to enroll at King Ceasor University</p> <p>Got new friends and new experiences</p> <p>Not the best but it's okay 😊</p> <p>We had wonderful teachers</p> <p>A very good institution. The only setback is lack of a charter</p> <p>Wonderful institution Deserves to be chartered !</p> <p>It will always be memorable</p> <p>Good but ended bad</p> <p>Not the best</p> <p>Great experience</p> <p>It was a great experience, challenging but developmental</p> <p>Good experience</p> <p>Good</p> <p>Social capital</p> <p>The experience was fair, mixed with challenges and good moments</p> <p>It was full of learning experiences at the campus and off campus in training sites!</p> <p>The experience was awesome</p>
--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

		<p>It's a center of quality education but affected by external politics, heads of regulatory councils, such as UMDPC, NCHE to the extent that other universities have applied for internship but us the graduates of KCU are still home not sure of what next.</p> <p>Fairly good Interesting. King Ceasor University has a very good atmosphere for learning King ceasor university opened doors for my future as it provides good atmosphere for learning Great Most times admistrarive work is too slow yet a very good University hence solved all is well. And failure to go for internship is to damage us bad. None I liked the cool environment Thanks Its a great experience</p>
